Transferred \$7,000 of general funds within the South Dakota Risk Pool This is a base transfer from personal services to operating expenses. With the addition of the Federal High Risk Pool more Bureau of Personnel staff time was spent in the Federal Pool than originally anticipated causing there to be unused personal service general funds in the State Risk Pool. A permanent transfer to operating expenses will allow those general funds to still be spent within the State Risk Pool, thus maintaining the State's partnership within this program.

Accounting transaction detail can be queried from the central accounting system by LRC staff. A record of this transfer and its authorization is available for public inspection in the Bureau of Finance and Management.
